

### **AV Apprentice Job Profile:**

We are seeking an Audio Video Installer to assist in the installation and pre-wire of our audio/video and custom automation projects.

Our Typical Scope of work A/V includes installation of automated lighting systems, home theatre with distributed audio and video, and advanced networking. Therefore we are looking for individuals who have following skill set:

- Must be familiar with cable makeup for smart switches and keypads.
- Familiarity with makeup of phoenix connections, RJ45 connections, cable terminations, and crossover cables.
- Experience with coax terminations.
- Familiarity with Rack Makeup and individual components (Receivers, AV switchers, Amps etc).
- Networking basics (familiar with routers, workgroup switches, cable modems).
- Must have reliable transportation.

Must own commonly used tools of the trade.
